The original article contained incorrect contact details for the corresponding author. The correct details are provided here.

In Section 3.4, the uppercase *P* indicating the significance for Cochran’s *Q* test should be a lowercase *p*. This sentence should read as follows: Neither Cochran’s *Q* test ($p = 0.360$) nor the I^2 statistic (9%) indicated the presence of heterogeneity among these studies.

Conflicts of interest: The authors have nothing to disclose.
